## **DETAILED ACTION**

### ***Response to Remarks***

Applicants' arguments, filed on 10/14/08, have been approved and entered. They have been fully considered. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either newly applied or reiterated. They constitute the complete set presently being applied to the instant application.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 18 and 23 are rejected under 35 U.S.C. 102(e) as being anticipated by Olejnik et al. (Pub. No.: US 2006/0252923 A1).

Olejnik discloses a conjugate comprising a nucleotide attached to a fluorescent marker through a photocleavable linker, said marker comprising BODIPY. (see Figure 4, page and page 13).

Art Unit: 1637

Claim 20 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-15, 22 are allowed.
